Admin Subsystem

The diagram illustrates the Admin Subsystem interface. It consists of a main container with a light gray background. Inside this container is a large rectangular area labeled "ListView of Users". Below this area is a horizontal "TextBox" for input. At the bottom of the container are three buttons: "Add", "Delete", and "Logout".

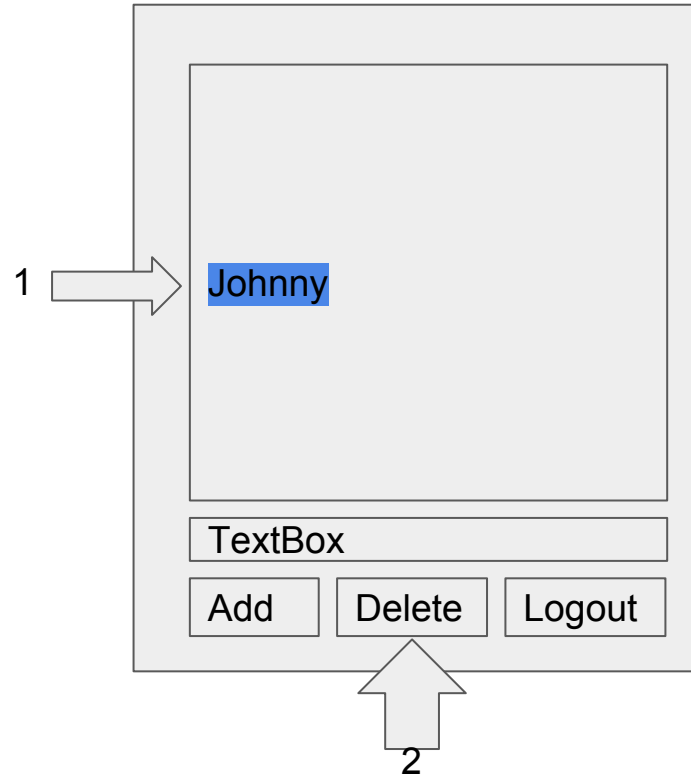

Basic overview of the admin subsystem.

Admin Subsystem

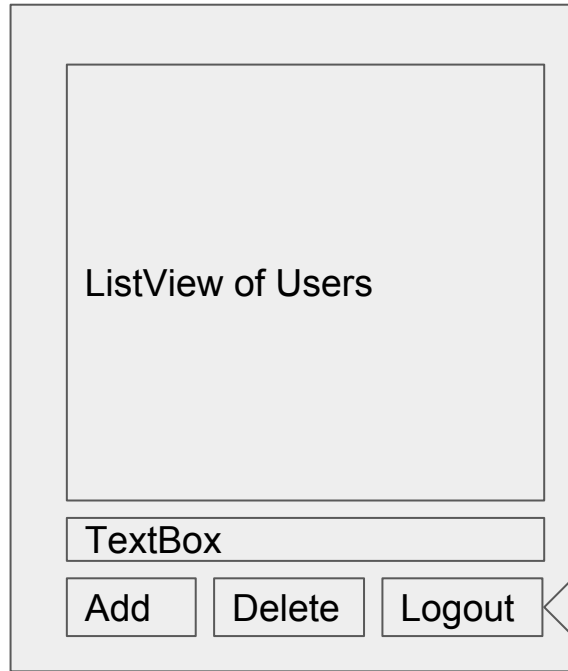

To add, type user name into TextBox and press add button.

Admin Subsystem

To delete, select from list and press delete button.

Admin Subsystem

The diagram shows a rectangular window representing the Admin Subsystem. Inside the window, there is a large rectangular area labeled "ListView of Users". Below this area is a horizontal rectangular field labeled "TextBox". At the bottom of the window, there are three rectangular buttons labeled "Add", "Delete", and "Logout" arranged horizontally. An arrow points from the right towards the "Logout" button, and the number "1" is placed to the right of the arrow.

To logout, press logout button and it should take you back to the login screen.

Non-admin Subsystem

The image shows a UI mockup for a 'Non-admin Subsystem'. It features a large rectangular area on the left labeled 'ListView for Album'. To the right of this area are two date pickers labeled 'DatePicker From' and 'DatePicker To'. Below these are two text boxes labeled 'Tag Name TB' and 'Tag Value TB', followed by a 'Search' button. At the bottom left, there is an 'Album name' text box and a row of four buttons: 'Create', 'Delete', 'Rename', and 'Open'. At the bottom right, there are 'Exit' and 'Logout' buttons.

Overview for
non-admin system

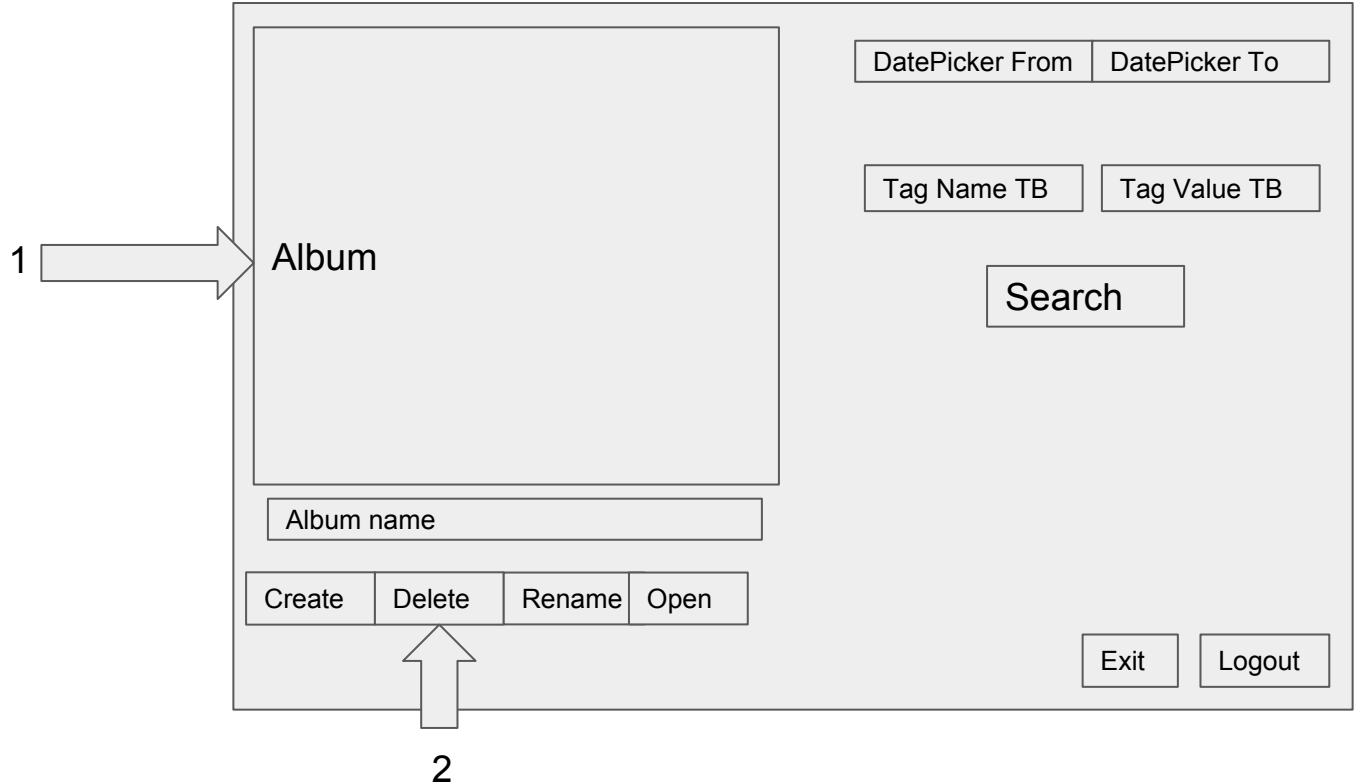

Non-admin Subsystem

To create a new album, type in the album name and press create.

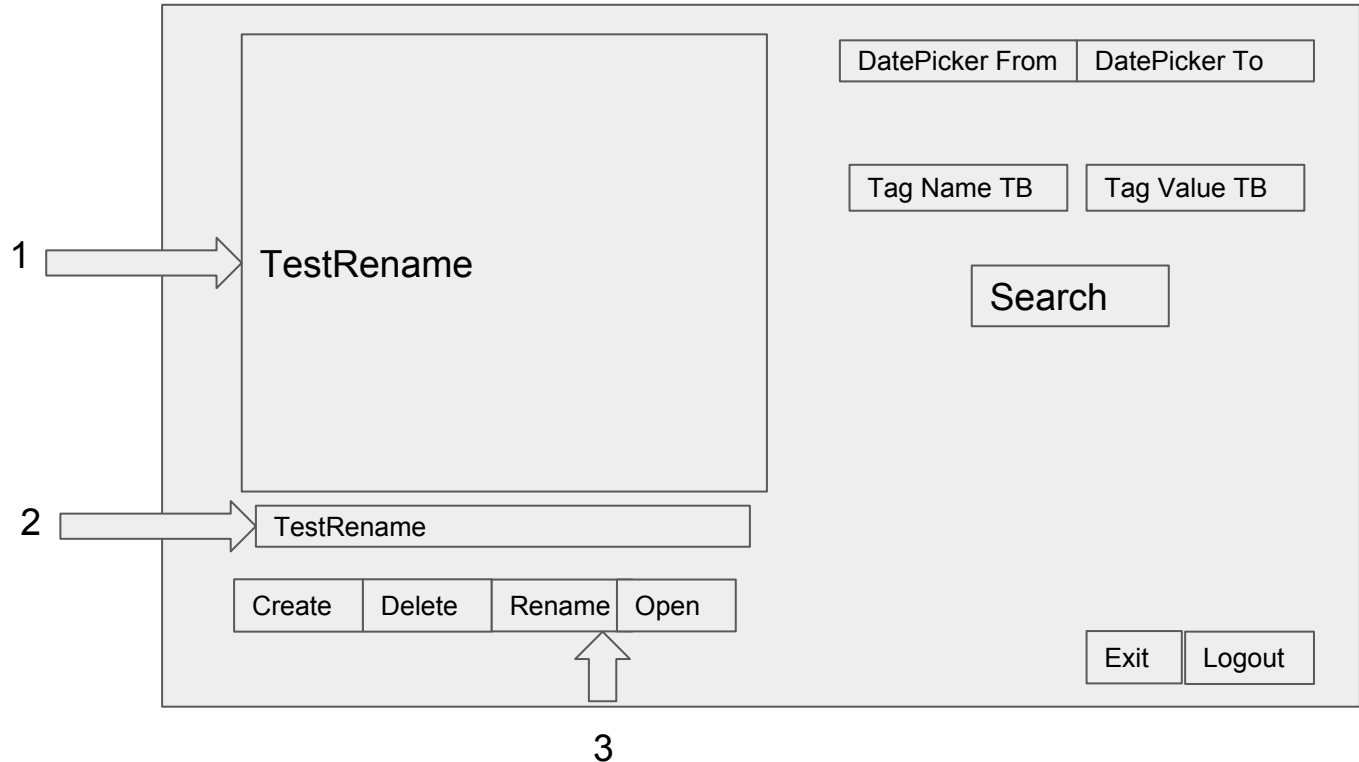

Non-admin Subsystem

To delete, select album and then press delete.

Non-admin Subsystem

To rename an album, select the album you want to edit, type in the new name of the album in the textbox, and press rename.

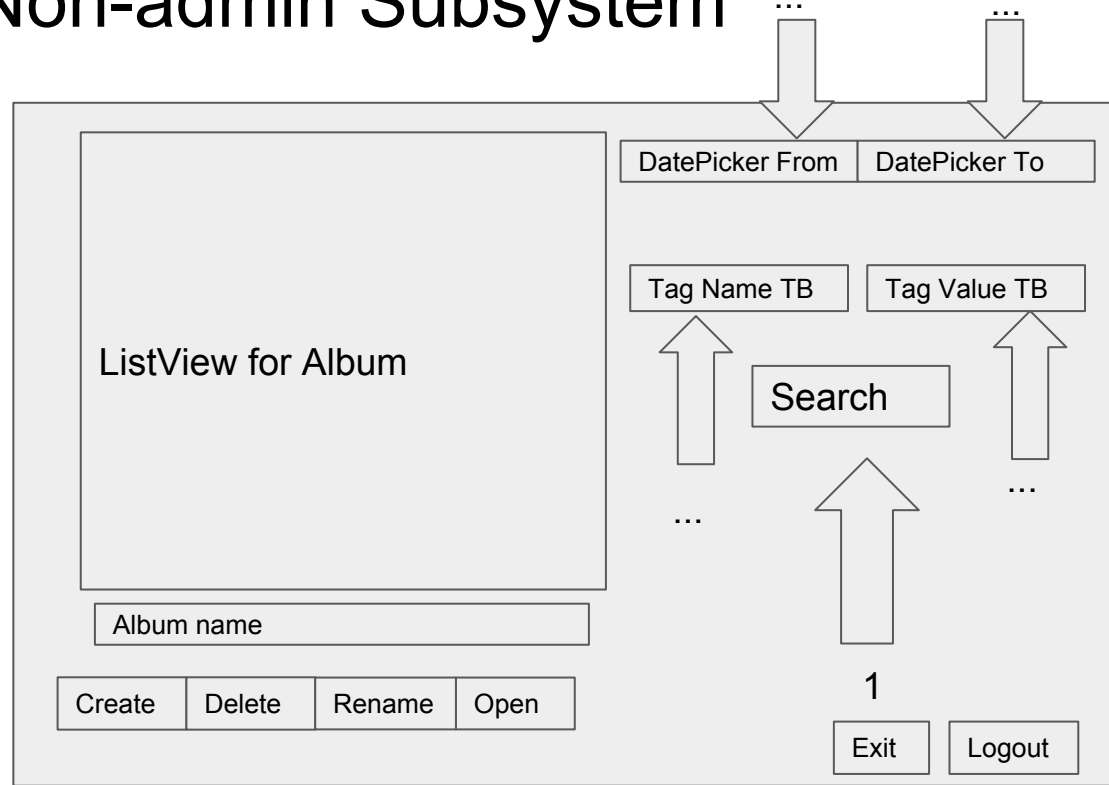

Non-admin Subsystem

To open an Album,
select the album from
the list and press the
open button.

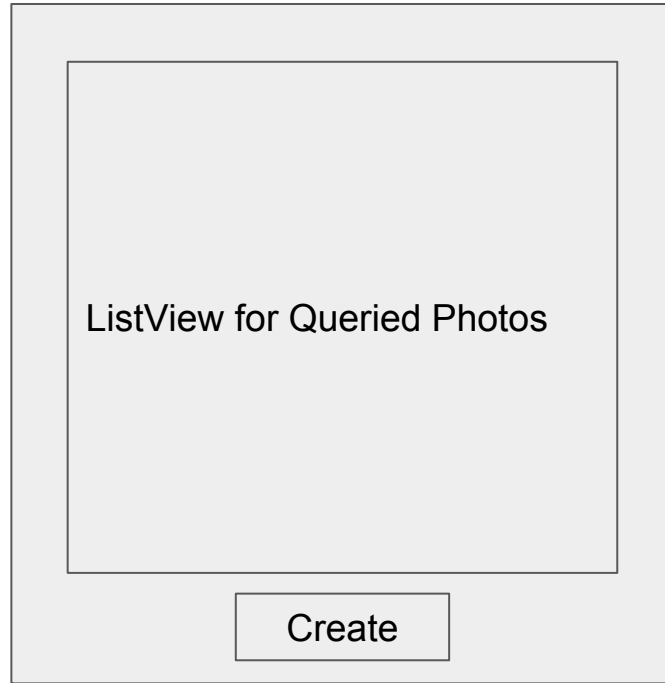

The diagram illustrates the Non-admin Subsystem interface. It features a large central area labeled "ListView for Album". To the right of this area are search filters: "DatePicker From" and "DatePicker To" at the top, followed by "Tag Name TB" and "Tag Value TB", and a "Search" button below them. Below the "ListView for Album" is an "Album name" input field. At the bottom left are four action buttons: "Create", "Delete", "Rename", and "Open". At the bottom right are "Exit" and "Logout" buttons. A horizontal line with the number "1" and an arrow points from the "Exit" button to the "Open" button, indicating a specific step or action.

Non-admin Subsystem

To search for photos based on tags or date, simply specify the date on the DatePicker items, type in tag name and value (if you want), and press Search.

Non-admin Subsystem Search Window

Overview of the
Search window.

Non-admin Subsystem

To exit the application entirely, simply press the exit button.

The diagram illustrates the Non-admin Subsystem interface. It features a large central area labeled "ListView for Album". To the right of this area are search filters: "DatePicker From" and "DatePicker To" at the top, followed by "Tag Name TB" and "Tag Value TB", and a "Search" button below them. Below the "ListView for Album" is an "Album name" input field. At the bottom left are four buttons: "Create", "Delete", "Rename", and "Open". At the bottom right, a large arrow points from a box containing the number "1" to a box containing "Exit" and "Logout" buttons.
